Technique-Guided Key Event Localization

Parting the Wild Horse's Mane: first left bow stance and parting hands

(a) Reference Event Localization

Technique Description

First left bow stance

Step forward; bend the left knee.
Part the hands: left hand up,
right hand down beside the hip.

Technique excerpt

Temporal Query

Authored offline; reviewed

Metrics

Ankle separation; left wrist height;
left knee angle; hand-height order.

Conditions

Wide step + high left wrist + bent knee;
left wrist above right; hands apart.*

Selection: first matching interval;
representative = maximum query score.

* Wrist separation is supporting evidence.
Search after the first hold-ball event.
